OFFICE ACTION

Examiner's Amendment

1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it **MUST** be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Robert Bodi on November 24, 2008.

2. In the Claims:

Cancel Claims 12-28 and 30-53.

Allowable Subject Matter

3. Claims 1-11 and 29 allowed.

4. The following is an examiner's statement of reasons for allowance:

The prior art of record does not teach or suggest a survey system that automatically calculates and displays survey results in real time or near real time to each survey participant utilizing historical survey data to allow each current survey participant to see a formatted survey report incorporating the survey data obtained from the current survey participant during or immediately after the conducted survey with the current participant, said displayed analyzed feedback formatted in a custom manner based on whether the current survey participant is a customer, or is an employee or a manager.

Non-patent reference “CustomerCast Subscriber Satisfaction System Proves a Powerful Competitive Advantage for Excite@Home” (hereinafter referred to as CustomerCast) teaches a system of compiling user feedback in which subscribers of its system can receive instant online access to the feedback in a variety of usable graphic formats, however, in CustomerCast there is no teaching that the feedback is formatted in a custom manner based on whether the current survey participant is a customer, or is an employee or a manager.

There are also no other teachings in the prior art that disclose a survey system which displays the survey results in real time or near real time to each survey participant and that also formats the display in a custom manner based on whether the current survey participant is a customer, or is an employee or a manager.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled “Comments on Statement of Reasons for Allowance.”

Conclusion

5. The prior art made of record and not relied upon is considered pertinent to applicant’s disclosure.

Japanese Patent 2002-7660 to Azuma teaches an attendance information autoanalysis system for computer based market analysis which produces real-time models using collected visitor’s information according to set management conditions.
